

INDI WATER

Tradition . Trust . Technology

WATER CHILLER

WATER PURIFICATION SYSTEMS

Manufacture Sales and Service

- Industrial water chillers
- Industrial Oil Chillers
- Recirculation chillers
- Dm water Plants
- Water purification systems
- Ultrapure water systems

Industrial Water and Oil Chillers

FEATURES

- Fully automated operation with optimized condensers
- Digital temperature display & electronic control
- Durable stainless-steel storage tanks
- Scroll, screw, centrifugal, or reciprocating.
- PLC/HMI touchscreen.
- Temperature Stability and Accuracy

APPLICATIONS

- PET Blow Moulding, CNC & CMM
- Beverages & Pharma Processing
- Paper, Rice & Sugar Mills
- Pharmaceutical Industry
- Chemical Processing Plants
- Food & Beverage Processing

Industrial Water Purification system

FEATURES

- Pure and Ultrapure water purification systems
- Multistage Filtration
- Automatic and semiautomatic operation
- Low cost of operations.
- PLC/HMI touchscreen.

APPLICATIONS

- Pharma and Food industries
- Potable water plants
- Dairy and beverage Production
- Boiler feed and Chemical industry
- Textile industries
- Cosmetic industries
